

**Inductive sensors special versions****IFRD 08****sample drawing****general data**

mounting type	quasi shielded
special type	full metal housing (DuroProx)
nominal sensing distance Sn	2 mm
hysteresis	2 ... 20 % of Sr

**sample picture****electrical data**

switching frequency	< 150 Hz
voltage supply range +Vs	10 ... 30 VDC
current consumption max.	20 mA
voltage drop Vd	< 2 VDC
short circuit protection	yes
reverse polarity protection	yes

**mechanical data**

type	cylindrical threaded
material (sensing face)	stainless steel 1.4404 (V4A)
housing material	stainless steel 1.4404 (A4)
pressure static	< 20 bar
dimension	8 mm
housing length	46 mm
connection types	connector M8

order reference	output circuit	operating tempera-ture	protection class	output indicator	output current
<b>IFRD 08N17A1/S35L</b>	NPN make function (NO)	-25 ... +75 °C	IP 68/67 (sensing face/sensor)	3 port LED red	< 200 mA
